

Painesville Township

HELLO 
February 

Single Hauler Solid Waste, Recycling and Yard Waste Bid Opportunity

Painesville Township is exploring the options of implementing a single hauler solid waste, curbside recycling and yard waste service provider.

The bidding process began yesterday, seeking sealed bids from interested service providers in order to find the lowest and best price for the residents of Painesville Township.

In addition to the savings to residents, the Township will also reduce the wear and tear on roads, which reduces repair and replacement costs, as well as reducing the cost to operate the brush drop off area at the service garage during the summer months.

The bid period closes March 6, after that time, the Township will review any bids received and make a determination, and award a contract if one is received that meets expectations.

Stay tuned in upcoming newsletters for the latest updates on the process as well as public meeting announcements for open discussion and questions and answers.

The full text and bid package can be found on our website, [HERE](#).

Think Spring!

The warmer months will be here before we know it! The Township began offering a limited number of Pickleball classes two summers ago with the addition of the new court at Hadden Park. Last year, class offerings tripled!

As we try to gauge interest in learning and improving skill class options, we'll be sending out additional information next month to help plan and coordinate the types and levels of classes that you want to see. Stay tuned for more details as well as the opportunity to share your opinion!

Snow Fall Reminders:

Reminder:

The winter has not been nice and the snow has not stopped!

Please remember when there is new snowfall

exceeding 2 inches, parking on the street is prohibited.

Our plow drivers are busy clearing the streets, and parked cars make it difficult to clear the streets safely.

Winter is STILL Here....

Painesville Township's Mailbox Guidelines and Snow Removal

Inspecting Your Mailbox

Property owners are encouraged to inspect their mailboxes and posts prior to the winter season each year and to replace or repair deteriorated mailboxes or posts to ensure their durability. Your mailbox should be designed and constructed to stand up to the rigors of the winter plowing season.

Design

Massive supports such as telephone poles, heavy metal posts, bricks, antique farm equipment or other similar items are considered hazards and should not be used. Any mailbox support should be designed so that if it is struck, it will bend, break or fall away from the striking vehicle to prevent severe damage to the vehicle or injury to the traveling public.

Repair or Replacement

The Painesville Township Service Department makes every effort to protect the integrity of property owner's mailboxes. However, during periods of heavy snow accumulation, mailboxes are sometimes damaged as a result of winter plowing operations. On most occasions they are knocked down or damaged by the force of the snow coming off the plow.

Please note: Painesville Township will not replace non-standard, specialty or exotic type mailboxes, and will only use breakaway type posts (4" X 4" timber posts) and a standard U.S. Postal Service approved light weight steel mailbox. Reapplication of numbers and lettering is the homeowner's responsibility.

Reporting a Damaged Mailbox:

Since roadways within the township are maintained by many different agencies, please visit our website to see who is responsible for maintaining your road to ensure you are contacting the correct agency.

To report damage done to your mailbox as a result of winter plowing operations by Painesville Township *please complete the Damaged Mailbox Form*. We will reach out to you ASAP.

Dates to Remember:

February 3 - Trustee meeting @ 7:30 pm

February 16 - President's Day -Town Hall Closed

February 17 - Trustee meeting @ 11:00 am
